Objective

Innovative and detail-oriented Web Developer with extensive experience in building responsive and dynamic websites. Proficient in HTML, CSS, JavaScript, PHP, MySQL, and Python, with a strong ability to translate client requirements into effective digital solutions. Adept at working in fast-paced environments and committed to continuous learning and improvement.

Projects

- **Snap Studio:An Ultimate Photography Platform**

I developed Snap Studio, a user-friendly photography website featuring advanced image editing tools, a competitive pricing chart, and a comprehensive feedback system. The gallery allows users to zoom in on images, download their favorites, and view client information for added context. Snap Studio ensures seamless navigation and superior user experience, making it easy for photographers to showcase their portfolios and for clients to find the perfect picture.

- **Chat Application (Chat Me)**

Security is paramount at Chat Me. I created it with a robust end-to-end encryption to keep your conversations private and secure. Plus, our app is cross-platform compatible, allowing you to chat smoothly across all your devices, from smartphones to desktops.

- **Play on (a music website)**

Designed and developed a dynamic music website (Playon), showcasing a user-friendly interface for seamless music exploration. Implemented features such as artist profiles, and an intuitive search function.

- **E-commerce website**

Engineered a robust e-commerce website, integrating secure payment gateways and an intuitive user interface to optimize the online shop

Experience

- **Softech Control Solutions**

Jan-2024 - july-2024

Web Developer

I have more than four months of hands-on experience in web development, during which I created numerous web projects, including an Andon demonstration, various graph models, and diverse web page designs. My technical skill set includes proficiency in HTML, CSS, JavaScript, PHP, and MySQL. My projects reflect my ability to deliver functional and visually appealing web solutions. I am committed to leveraging my skills to contribute effectively to future web development initiatives.

- **Encryptix**

July 2024 - August 2024

Front-End Web Developer | Encryptix

At Encryptix, I specialized in creating responsive, user-friendly web interfaces using HTML, CSS, and JavaScript. I collaborated with design and backend teams to develop a responsive book rental website, ensuring cross-browser compatibility and optimal performance. My role included debugging, troubleshooting, and adhering to best practices to deliver high-quality web solutions.

Education

- **SDIET Affiliated to J.C. Bose University India, Faridabad**

2024

Bachelor in technology with computer science

- **Prince Sr. Sec. School (CBSE)**

2019

Senior Secondary education

7.1

- **Prince Sr. Sec. School (CBSE)**
